ADDRESS

OF

HON. JONATHAN DEARBORN, MAYOR,

AT THE

ORGANIZATION OF THE CITY COUNCIL,

Portsmouth, N. H. January, 1867.

Gentlemen of the City Council :—

In accepting the position to which by your votes I have been assigned, I return you my thanks for the honor conferred, and assure you that I shall be ready on all occasions to discharge the duties of the office to the best of my ability, and with due regard to the welfare of your constituents.

I am able to offer but few suggestions at this time in relation to our municipal affairs.

There will be needed this year no unusual appropriations beyond the amount required for the debt payable during the year, which is \$14,000, and interest accruing, \$18,000.

Our Citizens have given recent unmistakable evidence of a desire to see a reduction in our municipal expenses; a measure in which I shall, and I trust every member of the City Government will, heartily co-operate.

I find the expenses of the City for the past six years to have been as follows :

	1861.	
Total Expenditures		\$62,004 51
War Expenses		4,392 70
City Debt, Interest and State Tax		7,592 70
Ordinary Municipal Expenses		50,019 24
	1862.	
Total Expenditures		119,191 42
War Expenses		63,262 86
City Debt, Interest and State Tax		13,189 41
Ordinary Municipal Expenses		42,739 15
	1863.	
Total Expenditures		187,058 32
War Expenses		108,445 91
City Debt, Interest and State Tax		22,710 67
Ordinary Municipal Expenses		55,901 74
	1864.	
Total Expenditures		180,213 68
War Expenses		64,400 00
City Debt, Interest and State Tax		44,551 35
Ordinary Municipal Expenses		71,262 33
	1865.	
Total Expenditures		155,286 63
War Expenses		4,280 00
City Debt, Interest and State Tax		78,270 00
Ordinary Municipal Expenses		72,736 63
	1866.	
Total Expenditures		159,908 46
City Debt, Interest and State Tax		65,861 97
Ordinary Municipal Expenses		94,046 49

It will be remembered that of the amounts set down as "War Expenses," large sums were subsequently returned to the City, for Bounties, &c. advanced; and by reason of the admirable system of accounts inaugurated by our efficient City Clerk, this City, unlike many of the Municipal Corporations of our State, has been able to collect the various advances made in this relation without loss, except so far as concerns United States bounties.

We have now only to provide for the installments of the City Debt as they become due, with the accruing interest ; and as our Municipal expenses were increased during the war, by many expenditures which could not be properly charged to "War Expenses," it is to be hoped that they now can be materially reduced.

Among the extraordinary expenditures of the year for which you will be required to make appropriation, is the road laid out by the County Commissioners from the north part of the City toward Newington. The cost of the work has been estimated to be from \$8,000 to \$12,000.

The apparatus of the Fire Department is in excellent condition. We have now sufficient machines to extinguish fires, and only want a more extensive supply of water. A new reservoir has long been needed near the jail ; and I am informed that an appropriation has been made for this object by the late City Government, but for some cause the reservoir was not built.

The City Farm and buildings are in good order, and as far as I have been able to ascertain, are under efficient care. The streets are, with few exceptions, in good condition ; and I am not aware that any very large appropriation will be required for the ensuing year other than that before stated.

The Police Department is now organized under an ordinance passed within a few years. I am of opinion that the Police and Watch Departments are now more expensive, without a corresponding increase of efficiency in their results, than in former years. I hope your early attention will be given to this important subject.

The Schools I trust will receive such liberal support as their importance demands. At the last session of the Legislature an act was passed, (which at the late municipal

election has been adopted by a majority of the voters of the City, as required by its provisions,) abolishing the District system and providing for an election by Wards, of Committee men. The change from the District system will afford an opportunity to provide places for scholars who heretofore could not be sent out of their District. The Brick School House in State street, in its present condition, seems to be of little use to the City for school purposes, while the room under the Court House is entirely unfit for the accommodation of the large number of scholars who are sent there. The wants of this school have been long acknowledged, and it is to be hoped that for the comfort of the teacher and scholars some plan may be devised to furnish them more healthy and comfortable school rooms. In Wards 1 and 3 improvements have been made the past year, which will materially add to the comfort of the scholars.

Gentlemen: In accepting the offices to which we have been chosen, I trust we shall be animated with a desire to faithfully discharge the duties of our various positions; and from an experience in this office I am able to say this cannot be done without a prompt and constant attendance at the stated meetings and committees of your Boards. Our constituents have the right to expect this, and without it, the interests of the City will oftentimes materially suffer.

CITY ORGANIZATION, 1867.

MAYOR, JONATHAN DEARBORN.

Measurers of Wood—David Philbrook, Daniel H. Spinney, Benjamin Russell, Thomas H. Odion, John M. Davis.

Surveyors of Lumber—Daniel Bailey, Benjamin M. Parker, Charles W. Bailey, Moses Yeaton, Benjamin Russell.

ANNUAL REPORT

OF THE

CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Hon. Mayor and City Council:

GENTLEMEN:—In presenting my annual report it gives me pleasure to say that our Fire Department is in most excellent order. The Companies are full of active and reliable members who are always ready and willing to do their whole duty when called upon.

The Apparatus belonging to the Department is in very good condition, and the several Companies take great pride in it and the best of care of that part of it which they have charge of in the different engine houses. What we most need is a better supply of water in several parts of the city. The attention of the City Council has been called to this deficiency several times in the annual reports of the Chief Engineer. If we had a good supply of water, I would recommend the purchase of one more Steam Fire Engine, in which case we could dispense with two of our hand engines. We have a good supply of hose for the Steamers, and shall not want any more for a year or two, unless another Steamer is put in the Department, in which case we shall need a few hundred feet more.

There have been eighteen fires and alarms since my last report.

January 30, 1866.—Alarm caused by the burning of a building belonging to John M. Davis, Cornwall street.

Jan. 30.—Alarm caused by the partial burning of a stable owned by Joseph Holmes, Cornwall street.

Jan. 31.—Alarm caused by a slight fire in the wood-shed of E. M. Brown.

Feb. 8.—A partial alarm caused by a slight fire on the roof of the Cushman house, Washington street.

Feb. 28.—Alarm caused by the partial burning of the store of W. I. Trafton, Congress street.

March 9.—Alarm caused by the burning of William Claggett's house.

March 10.—Alarm caused by the burning of the Hill House and barn, Vaughan street.

April 7.—Alarm caused by the burning of Uriah Blaisdell's barn.

April 10.—Alarm caused by a slight fire in the Spool Factory.

April 12.—Alarm caused by the burning of some brush on Freeman's Point.

April 18.—False alarm.

May 7.—Alarm caused by a slight fire under Geo. Jenness' shop, Daniel street.

June 25.—Alarm caused by the burning of the Waste-house of the Portsmouth Steam Mill, Adams street.

July 6.—A partial alarm caused by the burning of some tar in the rear of C. H. Mendum & Co.'s store.

July 30.—Alarm caused by a slight fire in J. C. Butler's store, Daniel street.

Aug. 8.—Partial alarm caused by the ringing of the Temple bell.

Oct. 7.—False alarm.

Oct. 20.—Alarm caused by fire in the Waste House of the Portsmouth Steam Mill, Adams street.

All of which is respectfully submitted,

JOHN H. MORAN,

Portsmouth, Dec. 31, 1866.

Chief Engineer.

REPORTS OF THE POLICE DEPARTMENT.

PORTSMOUTH, N. H. July 12, 1866.

To the Hon. Mayor and Board of Aldermen :—

GENTLEMEN:—Agreeably to usage, and in accordance with the Ordinance in relation to the duties of the City Marshal, I herewith have the honor to transmit my second and final quarterly report ending on this date.

The Police force consists of a Marshal, three Assistant Marshals, seven Policemen, four Supernumeraries and one special at the Navy Yard landing. The Marshal, Assistants and Policemen are all qualified and act as constables.

It has been the pleasure of the entire force of Policemen to uniform themselves in a neat suit of blue, with appropriate brass buttons, which adds very much to their appearance and efficiency.

The time of the service on duty of the force is so arranged that at no hour during the day or night is the city without protection, or the station house without an officer.

Since the commencement of the year there have been comparatively but few depredations on property or persons, and in all cases of any importance, the offenders have been speedily arrested. Among the fraternity of thieves, Portsmouth is considered a very undesirable place to visit to pursue their nefarious business; and while constant reports reach us from other places of large burglaries, robberies and crimes incidental, our own city has enjoyed a remarkable exemption therefrom. I attribute it to the competency of the Police force under my charge, which it

has been the pleasure of your Honorable body to appoint. The officers are men of character and intelligence, and have performed their duties in a creditable manner.

It will be seen by the lists of arrests and causes therefor, that a large number are from drunkenness. The excessive use of intoxicating drinks is one of the greatest misfortunes to which communities are exposed. To it may be traced many of the arrests in all our towns and cities. A majority of the persons arrested in our city for this offence are non-residents.

The Ordinance prohibiting the sale of liquor on Sunday has been very generally observed, and the Sabbath has been remarkably quiet.

The detection and proof of this offence is very difficult, but I believe only one case exists where a conviction did not ensue upon an arrest.

The proprietors of saloons where liquor is sold, have as nearly as possible complied with the Ordinance requiring them to close their places of business at eleven o'clock, P. M., and many of them have been prompt in this respect.

It will be seen by the table accompanying this, that very few persons have been arrested on charges of keeping disorderly houses. It may, perhaps, seem like a degree of negligence on the part of the Police. Such is not the case. When arrests are made in such cases, conviction is embarrassed and often defeated by the indisposition of respectable neighbors to appear either as prosecutors or witnesses.

There is in this city, as well as in all others, a class of juvenile offenders who are too young to be placed in jail or House of Correction with older criminals. The loss of the State Reform School by fire has prevented some of these parties from having justice done them. The build-

ing at Manchester is nearly completed and there will soon be a place where such young persons can be educated to better things than they now learn by the neglect of parental influence and advice.

During the summer an officer has been stationed at the Cemetery daily, whose duty it has been to preserve order in that vicinity, and prevent the violation of the Statute laws relating to the defacing, mutilating or destroying any tomb, monument, tree, shrub, &c. in cemeteries.

Immunity from punishment emboldens offenders who would, if justice were certainly and promptly administered, be held in check. In Judge Odell's Court, this deficiency in the machinery of justice does not occur. His Honor is charitable, and yet Justice gets her due. A case must be proved before him, or an acquittal is certain.

And, Mr. Mayor, permit me to thank you for your many acts of kindness, for the advice, assistance and prompt support which I have at all times received at your hands in the discharge of my duties. I would also acknowledge my indebtedness to the gentlemen composing the Board of Aldermen and Council for their assistance — an assistance no man can flatter himself he can do without when placed in a similar position.

In conclusion, gentlemen, I again return you my thanks and my acknowledgements to the Police for their cordial co-operation, vigilance and efficiency.

I am, gentlemen, very respectfully,

Your Obed't Servant,

J. HORACE KENT.

CITY MARSHAL'S OFFICE, Portsmouth, Jan. 4th, 1867.

To His Honor the Mayor and the City Council.

GENTLEMEN:—I most respectfully submit to you the annual report of the Police Department of the City of Portsmouth for the year ending with December, 1866.

This department was under the charge of Emery A. Dresser, Esq. till January 22, then under J. Horace Kent, Esq. till July 12, and on Mr. Kent's resignation, I was appointed City Marshal and immediately entered upon the discharge of the duties of the office.

During the year 805 arrests have been made for the following causes:

For assault and battery 59, with intent to kill 3, burglary 9, brawl and tumult 26, breaking jail 4, bastardy 2, common drunkards 3, drunkenness 436, disobedience to parents 2, desertion from House of Correction 9, from U. S. service and other places 62, disorderly conduct 16, discharging torpedoes 2, disorderly houses 10, false cry of fire 3, fast driving 5, fighting 4, fornication 2, fraud 1, highway robbery 5, horse stealing 3, indecent exposure 1, illegal voting 2, larceny 40, murder 2, night walking 12, obtaining money under false pretences 2, perjury 1, playing with fire 2, peddling without licences 3, rape 1, resisting officer 2, suspicion 15, selling liquor 1, selling lottery tickets 2, throwing snow balls 3, stones 3, taking letters from Post Office 2, truancy 5, using obscene language 1, violating Sunday ordinance 11, bathing ordn. 12, violating sidewalk ordinance 3, ordinance as to dogs 1, for vagrancy 10, wilful and malicious mischief 2. Total—805.

Three hundred and twenty-eight persons have lodged in the Station House during the year, and seven lost children have been restored to their homes.

There has been collected in payment of fines and costs during the year, the sum of sixteen hundred sixty-six dollars twelve cents, and the same has been paid over to the city treasurer as follows :

By Marshal Dresser,	47 47
“ “ Kent,	792 08
“ myself,	826 57

Since I succeeded to the office of Marshal, the city has been unusually quiet and orderly. I have always found my assistants ready and willing to lend me aid in the execution of the Police Business. I have also received the support and encouragement of the city officers whenever attempts have been made to discourage or embarrass me in what I have conceived to be the sworn and bounden duties of my office—such support while it has made me cautious to see that I did not abuse the confidence reposed in me, has emboldened me to keep on in my path of duty, regardless of threats or embarrassments which can only annoy me for the time. If thus far I have performed the duties of my office so as to meet your approval, I cannot see why with your countenance and the assistance of my deputies, I should not meet the expectation that the persons and property of our citizens shall be as well protected, and the good order of our City as well maintained in the future as in the past.

I have the honor to remain, gentlemen, very respectfully,

Your obedient serv't,

FRANK B. JOHNSON,
City Marshal.

REPORT
OF THE
SUPERINTENDENT OF ALMSHOUSE & CITY FARM.

To the Hon. Mayor and Board of Overseers :—

GENTLEMEN:—I would respectfully report that the whole number of persons admitted to the Almshouse for the past year, including those committed to the House of Correction, is 179.

Largest number of inmates, 79.

Smallest, " " 60.

Average, " " 70.

Present, " " 72.

Of whom 4 are over 80 years of age, 9 between 70 and 80, 12 between 60 and 70, 16 between 50 and 60, 6 between 40 and 50, 9 between 30 and 40, 9 between 20 and 30, 4 between 10 and 20, and 2 under 10 years of age.

Number of deaths during the year, 2.

" births, " " 1.

" insane, 10.

" — idiots, 8.

Respectfully submitted,

WILLIAM L. PHILBRICK *Sup't.*

Portsmouth Almshouse, Dec. 31, 1866.

REPORT
OF THE
MASTER OF HOUSE OF CORRECTION.
December 31, 1866.

To Hon. Mayor and Committee on House of Correction :

GENTLEMEN :—I would respectfully report that the number of commitments to the House of Correction from January 1, 1866, to date, was 119—101 males, 18 females, for the following causes :—

Drunkenness, 92 ; Common Drunkards, 7 ; Vagrancy, 4 ; Brawl and Tumult, 4 ; Night Walking, 5 ; Raising Alarm of Fire, 2 ; from House of Reformation, 1 ; Indecent Behavior, 1 ; Stubborn and Wilful child, 1 ; Assault, 1 ; Throwing Stones, 1. Admitted since July 1, 64.

18 paid fines and costs ; 21 deserted ; 6 discharged by order of Mayor and Committee on House of Correction ; 84 served time ; 8 remaining at the House.

Number of day's labor performed by male prisoners since January 1, 1866, to date is 1732 ; since July 1, 900. Number of weeks labor performed by female prisoners during the year is 195 ; since July 1, 84.

Amount of fines and costs collected is, \$138 39 ; amount paid City Marshal, \$138 39.

WILLIAM L. PHILBRICK,
Master H. of C.

CITY SOLICITOR'S REPORT.

To the Mayor and Aldermen of the City of Portsmouth:—

During the year 1866, there have been no new actions commenced for or against the city:—

At the commencement of the year there were pending in the different Courts eight actions. There are now pending but two.

The bill in Chancery for aid to support Statira Shores was dismissed without costs.

The action of the First National Bank against the City to recover back taxes which had been assessed and collected of the Bank, was decided in favor of the city as to almost all the tax assessed; thus deciding a point of great importance as to the taxation of stocks in Banks in favor of such right as to all residents in the city.

The actions of French vs. Portsmouth, Towle vs. Portsmouth, and Downing vs. Portsmouth, were settled by agreement in a way satisfactory to all parties without trial, although, in Downing vs. Portsmouth, before settlement the witnesses had all been summoned into Court and full preparation made to try the same.

The road petition of Jones and als., was decided against the city. There are now pending the actions of Foster vs. Portsmouth, and Goodwin vs. Portsmouth.

The action of Goodwin vs. Portsmouth was tried at the October term, and a verdict ordered in favor of the city, and the case is now pending in the law term on questions of law. In the action of Foster vs. Portsmouth, by agreement it was continued, and is to be continued until the case of Foster vs. Spinney can be tried, which involves the same damages claimed in the action of Foster vs. Portsmouth, and if a recovery is had in that case, the city will not probably be held to undergo the expense of a trial. I hope the next report of your Solicitor will shew the docket clear of all cases where the city is concerned.

S. H. GOODALL,

Portsmouth, Dec. 31, 1866.

Solicitor of Portsmouth.

REPORTS
OF THE
SCHOOL COMMITTEES
OF THE
CITY OF PORTSMOUTH,
FOR THE YEAR ENDING MARCH 1, 1867.

REPORT
OF THE
HIGH SCHOOL COMMITTEE.

To the Hon. Mayor and Board of Aldermen:—

THE High School Committee respectfully submit the following report :

There has been no change of teachers since the last report, and your Committee bears testimony to the earnest and devoted manner in which these faithful instructors have joined us in our plans for the improvement of the schools. The pupils also, have shown a commendable degree of interest and earnestness in the pursuit of their studies during the past year.

The military drill has been given up, but the subject of exercise has not suffered thereby.

We have made arrangements with Mr. Amos Pearson to give regular lessons in music to the two schools, and trust the advantages of this practical accomplishment will be so evident to all that the good services so gratuitously given, may be hereafter suitably rewarded.

Your Committee have considered the propriety and importance of raising the grade of the schools, and also of arranging a shorter course of English studies for the accommodation of such pupils, and such only, as cannot attend the schools for a longer period than such a course will require ; but owing to the absence of the Chairman of this Committee, no definite plan has yet been decided upon

List of Graduates, 1866.

HIGH SCHOOL NOTICE, 1867.

The examination of candidates for admission to the High Schools will commence at 8 o'clock on the Monday morning after the Public Exhibitions of these schools. All pupils will bring pens and ink, a certificate of vaccination, a certificate to show that their parents are at that time residing within the city limits, and also, when it is possible, a paper from their former teacher, showing their standing as regards recitations and conduct during their whole met in that school, whether public or private.

To be admitted, pupils must pass a satisfactory examination in Writing, which must be neat and distinct, if not artistic or elegant; in Reading, which must be plain and intelligible; in use of Punctuation marks and Capital Letters; in Spelling; in English Grammar; in Geography, including Map Drawing; and in the History of the United States.

**COURSE OF STUDY IN THE HIGH SCHOOL,

REPORT

OF THE

SCHOOL COMMITTEE DISTRICT NO. 1.

To the Hon. Mayor and Aldermen of Portsmouth :—

· ANOTHER school year has closed, and the citizens properly expect a report of the state of the public schools from those who have been their appointed guardians. Various circumstances join to make this duty pleasant. Ample means for all necessary expenses have been placed at our disposal; we have received the support of the people; and our teachers have labored faithfully. The schools themselves show that their welfare has in no way been neglected by us.

The number of schools remains the same as reported a year ago, viz: 3 Grammar schools, 2 Intermediate schools, 3 Primary schools, 1 Mixed school—in all 9.

PRIMARY SCHOOLS.

There has been no change in these schools during the year. The teachers of last year continue to discharge faithfully the duties of their position. The labor of teaching in these, and in all our schools, has been rendered more arduous by the action of the Committee in advancing the standard—much higher qualifications being required in candidates for the higher schools. Nothing more than an approximation to the standard was looked for during the winter term. But for the present year, these Primary

schools being the starting point, all advancement beginning here, may expect to receive particular attention.

The order in these schools has been what the Committee desired. The children are too young to be put under strict discipline. They must be cared for with tenderness, and allowed the largest license consistent with progress. It requires real genius to devise constant and useful employment for all the children. The range of instruction is very limited, as are also the capacities of the children. We wonder the teachers have not availed themselves of the hints to be found in books devoted to the subject.

The Committee regret that so little attention has been given to their former suggestions in regard to the rooms occupied by Mrs. Mullen and by Miss Rogers. Miss Rogers' room is in the basement of the Franklin School House, separated from the damp unwholesome air of the cellar by a very thin partition. Mrs. Mullen's is too small for the comfort of the children, and both are badly ventilated.

INTERMEDIATE SCHOOLS.

These schools are in a prosperous condition. The teachers are peculiarly fitted for their positions, and have labored successfully to advance the interests of the schools. At the examination of Miss Simes' school, the Committee were particularly well pleased to notice the proficiency of the scholars in *mental* Arithmetic. By reference to the plan adopted last summer, it will be seen that this branch is introduced into the Primary, and continued, without cessation, through the Grammar schools. The results in this school rendered the absence of it in the others more conspicuous.

In Miss Manson's school the discipline is all that could be wished. We do not see how it can well be surpassed. Owing to the crowded condition of the

mar school last summer, no promotions were made from this room. By remaining in this school, the class that should have entered Mr. Buzzel's will be advanced in their studies, by August, at least 18 months beyond any previous class.

GRAMMAR SCHOOLS.

The Committee are inclined to view with satisfaction the results of their efforts to improve the condition of the rooms and surroundings of the Hanover-st. school. It had been evident for several years that some change was imperatively demanded. Early in the summer an appropriation was passed for the proposed alterations, which were begun at the commencement of the vacation. The whole building was raised 4 ft. and 10 ft. were added to the rear, while several great improvements were made in the interior arrangements. We now consider the rooms in a perfect condition, well calculated to promote the comfort and health of the pupils.

Soon after the commencement of the Fall term. Miss Mason resigned her situation in the Girls' school, after several years of diligent service, and the school was placed in charge of Miss Susan F. Drake. Miss Drake has not permitted the excellent work of her predecessor to pass unimproved. The school is well conducted, and the results as shown by the examination were very satisfactory. The other teachers have been in their present situations a considerable time and have been noticed with commendation.

WOODBURY SCHOOL—MIXED.

The school has suffered somewhat by the change of teachers. The former teacher, Mr. Joy, having resigned, the Committee agreeing that a woman was better adapted to this school, elected Miss Fanny Hodgdon to fill the vacancy. After a short term of service, she resigned at

the close of the summer, and Miss M. J. Roberts was appointed. There is no doubt that under her care the school will attain a high position, and be an honor to the City.

TEXT-BOOKS.

Much of the Committee's time is consumed in the examination of rival text-books. In the majority of cases, there is but little choice between the old book and new. It is impossible that any book used in the school should be all that is needed. "The teacher should never allow the book to supersede him, or exchange the function of an educator for that of a hearer of lessons." We have too little oral instruction, and too much confinement to text-books in our schools. Those teachers are always the most successful who have each branch of study so much at command, that they can make *themselves* the text-book. It is the duty of the true teacher to turn the rules, principles and data of the text-book into living practical power.

Respectfully submitted.

Miss Manson's School—Reading, Spelling, Geography, Arithmetic and Writing.

Misses Rogers' and Hanscom's School—Reading, Spelling and Arithmetic.

REPORT

OF THE

SCHOOL COMMITTEE DISTRICT NO. 2.

To the Mayor and Aldermen of the City of Portsmouth:—

There has been unusual activity in educational matters in this district the present year. The Committee, divided into sub-committees, has visited the several schools and kept a close watch over their interests.

Several changes have taken place among the teachers, and the Committee cannot pass by, without a public recognition of her valuable services, the resignation of Miss Willey, a teacher in the Intermediate department. To supply her place and to fill a vacancy in the Plains school the Committee held an examination the month of August, which resulted in the choice of Miss Walker to the Plains school, and Miss Payson as assistant for the Cabot street school; while Miss Fitts, from the latter, an excellent teacher, was appointed to fill the vacancy made by the resignation of Miss Willey. Miss Walker was obliged, by sickness, to resign the Plains school, and Mr. Edward P. Sherburne was appointed for the winter term. The Committee regret to notice the apparent want of interest felt by some of the parents whose children attend this school, and also by some of the scholars, eighteen of the highest class having purposely absented themselves at the last notified public examination. The other teachers are the same as in the previous year, and the Commit-

tee bear testimony most heartily to their competency, interest and success.

In regard to the examination of teachers, the Committee hold that no certificate of graduation from any school, and no recommendatory letters, should take precedence of a fair and thorough examination; but after such examination, all other things being equal, a graduate from the High School will be preferred and the choice should fall upon the one who has had the most successful experience in teaching, or brings the most satisfactory credentials of education.

While it is true that the most learned are not always the best teachers, it is also even more evident that one cannot teach what he does not himself know; of which knowledge an impartial examination is the only sufficient evidence. It is quite time the idea was abandoned that one who has just passed over any study, one who has just learned or is learning a study, or who has just graduated from a school, is most likely to prove the best teacher. All the sciences have a certain dependence upon each other, and help illustrate one another, so that he who knows the most of all is best qualified, if he have any capacity whatever for teaching, to be the teacher of each. On this account the Committee cannot feel authorized to appoint any teacher hereafter without giving the applicant a most thorough examination.

A new set of *Rules and Regulations* has been prepared and hung up in each school room, to which the particular and constant attention of teachers and committee is called.

The Cabot St. school house has been enlarged greatly, increasing the comfort of teachers and pupils.

Such is the condition of one of our grammar schools, unfavorable alike to the body and mind, that the Commit-

tee has made the greatest efforts to procure a building well fitted by situation and size for the educational interests of the district. Thus far these efforts have been unsuccessful, but your earnest attention is called to the urgent necessity of more and better buildings for school purposes. It is sometimes the case that school committees, feeling the want of room, and that one class must be advanced to provide places for another, pass pupils up from one department to another, without proper regard to their qualifications. Every such advancement is the ruin of the pupil; and instead of going forward, he must actually go backward every day. Nothing can be more thoroughly destructive to the welfare of the pupils, or present a more effectual barrier to their progress. Your committee has been compelled to decide that qualification and qualification alone can be the test of advancement; and that a pupil, having regard solely to his own good, must remain in one department year after year, without considering his age, or the time he has been there, or the number of times he has gone through any study,—until he is thoroughly fitted for a higher department. It is not at all necessary that we have many pupils in the High or Grammar schools—but it is quite necessary that before any one enters either of these, he thoroughly masters the studies of the intermediate and primary schools; and it is necessary that teachers and pupils understand and act upon this.

School committees are greatly troubled by book agents, seeking to introduce new series of books. Such is the merit of our standard text books, that for the sake of the single suggestion, or the advantage of arrangement which any new one may offer, it is hardly necessary to make a change, and new books should be introduced rarely and judiciously—but it is quite important that the teachers

should have the advantage of any improvement offered, or of any suggestions or additional knowledge a new series might possess which they could introduce into the recitations from the accustomed text-book, for the more thorough education of the pupils. A very trifling sum would provide a *Teachers' Library* in each *Department*, and be of inestimable profit by giving ready access to all the best text-books in any one study.

Several conventions of the committees of the different districts have been held this year, which we trust will result in a more perfect grading and course of studies in the schools of the city.

STUDIES IN DISTRICT NO. 2.

Mr. Durgin's School—Reading, Spelling, Defining, Physiology. Writing, Arithmetic, Geography, Grammar, Drawing and Vocal Music.

Mr. Hoyt's School—Reading, Writing, Spelling, Defining, Geogrophy and Arithmetic.

Miss Hill's School—Reading, Spelling, Defining, Writing, Physiology, Grammar, Arithmetic, Geography, Map Drawing and History.

Mr. Sherburne's School—Reading, Spelling, Physiology, Writing, Arithmetic, Algebra, Geography, Grammar and History.

Miss Willey's School—Reading, Writing, Spelling, Defining, Arithmetic and Geography.

Miss Ham's School—Reading, Spelling, Combination Card and Singing.

Miss C. A. Walker's School—Reading, Spelling, Arithmetic, Object Teaching and Singing.

REPORT

OF THE

SCHOOL COMMITTEE DISTRICT NO. 3.

To the Hon. Mayor and Aldermen of Portsmouth :—

The School Committee of District No. 3, respectfully submit the following report :—

The Haven School is in excellent condition. Much care and labor have been bestowed upon it by the Principal and his assistants during the past year, and the result of their efforts is very evident in the progress made by its several departments. The School is at present constituted as follows :—

Principal, George T. Wiggin.

Teacher 1st Division, G. T. Wiggin.

"	2d	"	Miss Ann C. Marshall.
"	3d	"	Miss Eliza M. Marshall.
"	4th	"	Miss Frances N. Shackford,
"	5th	"	Miss Kate N. Ordiorne,
"	6th	"	Miss Martha A. Ellison,
"	7th	"	Miss Eva M. Noyes.

The LaFayette School was taught during the summer and fall months by its former teacher, Miss Sarah M. Norton ; and during the winter has been under the care of Mr. Frank M. Demeritt of Hanover, N. H. Both Teachers have proved themselves well fitted for their work, and the school has made considerable progress under their charge.
